Issue ID	Title	State	Description	Author	Assignee	Due Date	Created At (UTC)	Updated At (UTC)	Closed At (UTC)	Weight	Labels
1	AppController input.	Closed	App controller contains input requests from the user. This makes the class untestable. Suggest making the request for privileges a separate method that is called by the main class if the login method returns true.	C.M.Finn	K.P.D'Arcy	2019/02/17	2019/02/16 14:56	2019/02/17 22:02	2019/02/17 22:02	5	Source Code
2	document in HRDatabase is never assigned throws null pointer in readPersonalDetails.	Closed	if statement at the top of the readPersonalDetails method checks if the employee number matches the staff ID of a document field that is never assigned any values.	C.M.Finn	A.E.Jaffray	2019/03/03	2019/03/03 22:43	2019/03/04 01:07	2019/03/04 01:07	8	Source Code
